**INTRODUCTION:**

It is time to have an index for the dental market, that is what SDMI is all about, SDMI is an abbreviation for Soubt Dental Market Index, where Soubt is the family name of Dr. Ibrahim Soubt who invented and calculated the index.

**How the SDMI is calculated (WEIGHTING METHOD):**

Value-weighted method may be considered as a most appropriate method than others. For a value-weighted index, the weight of each constituent stock is proportional to its market share in terms of capitalization. We can assume that the amount of money invested in each of the constituent stocks is proportional to its percentage of the total value of all constituent stocks.

**What is SDMI:**

SDMI is Soubt Dental Market Index, 52 dental leading companies traded in the stock markets are included in the calculation of this index from the USA, Europe, Australia and Asia. SDMI is calculated weekly.

SDMI: Soubt Dental Market Index

SDMI also has 5 sub indices:

SDMI (CAD/CAM): Soubt Dental Market Index for the dental CAD/CAM industry.

SDMI (Implant): Soubt Dental Market Index for the dental Implant industry.

SDMI (USA): Soubt Dental Market Index for the dental industry in the USA.

SDMI (Europe): Soubt Dental Market Index for the dental industry in Europe

SDMI (Asia, Pacific): Soubt Dental Market Index for the dental industry in Asia and the Pacific
